Peking Union Medical College

Announcements for the Academic Year 1919-20

The work of the reorganized Peking Union Medical College is divided between two schools: the Medical School, which gives a four years' course in medicine and an additional optional year of special work in the laboratories or hospital; and the Premedical School, which offers a three years' course preparatory to admission to the Medical School. The Premedical School was opened in September 1917. The Medical School will admit its first class on October 1, 1919.

All instruction in both the Medical and the Premedical Schools, except courses in Chinese language and literature, is given in the English language.

THE MEDICAL SCHOOL

Requirements for Admission: The minimum requirements for admission to the Medical School are graduation from an approved middle school, or its equivalent, and the completion of not less than three years of college work. This must include satisfactory courses in biology, chemistry (including general, analytical, and organic), physics, English, Chinese, and at least one other foreign language.

Curriculum: During the year 1919-20 only the subjects included in the first year of the medical course will be offered.

Graduate Courses and Research: Special courses in anatomy, physiology, and physiological chemistry will be offered during the year 1919-20 to graduates in medicine or other qualified persons. Visitors who desire to investigate special problems may be granted the use of the laboratories at the discretion of the Director.

THE PREMEDICAL SCHOOL

Requirements for Admission: Admission is by entrance examination only. To be eligible for the entrance examinations, a candidate must be a graduate of an approved middle school or its equivalent, and must possess a good working knowledge of English, both oral and written.

Curriculum: The Premedical School offers a three-year course in the fundamental subjects which are prerequisite to the study of medicine, including mathematics, biology, chemistry, physics, Chinese, English, French, and German. Students who complete satisfactorily the work of the Premedical School are admitted to the Medical School without further examinations.

Admission: Admission with advanced standing will be granted to candidates who present suitable credentials showing the completion of one or more years of work of collegiate grade and who pass satisfactory examinations in the subjects for which credit is desired.

Calendar: The first semester opens September 23, 1919, and closes January 30, 1920; the second semester opens February 3, 1920, and closes June 16.

EXAMINATIONS

Examinations for admission to the first year of the Medical School and for admission to the Premedical School will be held at Peking and at Shanghai on June 9 to 13 and August 25 to 29, 1919. In case the number of applicants warrants it, examinations will be held at other centers. Applications for admission and requests for further information should be addressed to:
